

My challenge to Atheists, Agnostics, and Skeptics is to read the twenty-five presentations in this book and send me your best rebuttals. Rebut the argument that the impossibility of something coming from nothing by itself implies the existence of an eternal entity, the argument that the **existence of evil and human suffering does not disprove the existence of God**, the argument that there being only one way to God was designed by a God of love, and the argument that the **Bible** is a credible book based on the evidence of ancient manuscripts, archaeology, prophecies, statistics, changed lives, non-Biblical literature, **the Jewish nation**, and **the Jewish people (the best evidence)**. These are just a few of the twenty-five presentations that you can provide a rebuttal to. If you have not thought through these issues, then the only one that you are being unfair to is you. **Besides God loves you** and provides evidence for you to believe, so you need **to read this book**.

My challenge to Christians is to read the twenty-five presentations in this book and find comfort in the knowledge that the **Bible** is a **credible book**. However, too many of us do not study the **Bible** like we should to understand what God shares through the stories and other comments presented in the **Bible**. Those stories and other comments may be familiar to us but often we miss the real meaning of some. For instance, many Christians say that **God's existence as a Trinity** is hard to understand, and some Christians do not believe that there was such a thing as **spiritual death** nor that **Jesus** had to **experience a spiritual death** and a **physical death** on the **cross**. Nevertheless, **God** gave us stories and other comments in the **Bible** to explain both **His existence as a Trinity** and **spiritual death**, among other things. We just need to pray for the discernment of the **Holy Spirit** and to analyze what is being read in order to understand the **Bible**. Among other topics, this book shares what the author believes that **God** is telling us in the **Bible** about **His existence as a Trinity**, **spiritual death**, and the **spiritual death of Jesus**. These topics are three of the twenty-five presentations in this book, other presentations **debunk the non-Christian's objection to there being only one way to God** and **debunk the non-Christian's objection to the size of Noah's Ark as indicated in the Bible because of all the different animals that exist today**, so you need to **read this book!**

The author's prayer is that
this book glorifies God!
